

# Securing our Children's Future by Donating Grain Today

**Caring SA Farmers Unite ...**

**Covid-19 is not only causing havoc in our economy, but it is also hurting the children and families that have lost hope and income.  
We as South African Grain Farmers will relieve some of their misery by donating grain today.**

# #PAYFOODFORWARD – GRAIN CARE’S GRAIN DONATION INITIATIVE

## *South African grain producers – alleviate our nation’s distress by donating grain*

- South Africa now has a “DROUGHT” in the form of the corona virus which results in many of our people experiencing severe food shortages due to restrictions.
- Farmers understand droughts and the associated pain.
- Farmers understand what it means to donate feed and to unite in their prayer's for rain.
- Farmers’ job is to feed people.
- South African agriculture has been blessed with good expectations of their summer crop.
- Grain Care creates an environment in which farmers, farmers’ associations, agribusinesses, banks and all other stakeholders in the food value chain can join their non-profit efforts to donate staples to needy communities in solidarity.

## *Project background*

- The Covid-19 pandemic in South Africa and the social challenges facing many South Africans are gripping the hearts of stakeholders in the food value chain.
- Many of the role players feel the need to get involved through donations and donations to help alleviate the need.
- As a result, various individual relief efforts have come into being and their value does not reach the places of need optimally.
- The #PayFoodForward donation system provides security to a Grain Care initiative in which producers take the lead and try to bring food donations to needy communities.

# #PAYFOODFORWARD – GRAIN CARE’S GRAIN DONATION INITIATIVE

## *Objective of the project – this is the extent of our “dream”*

- To donate flour for 1 million meals per month.
- Role players in the food value chain will support the projects with cash or product contributions.
- Farmers in drought-stricken areas are eligible for donations, animal feeds and food.
- This project is to help all people in need.
- Communities in food need in drought-stricken communities in the countryside will be specifically supported.
- General poverty relief also in other areas by providing food products.

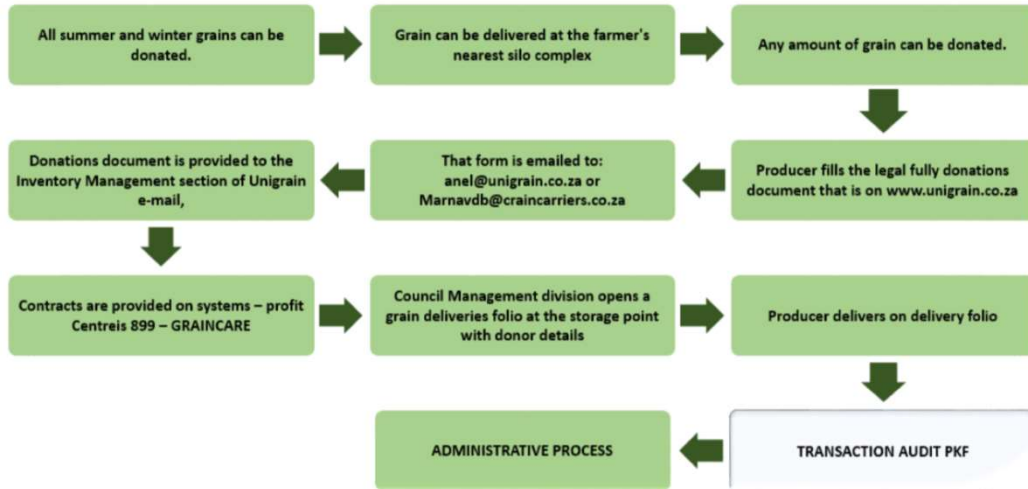

## *Who is involved?*

South African grain producers are taking the lead.

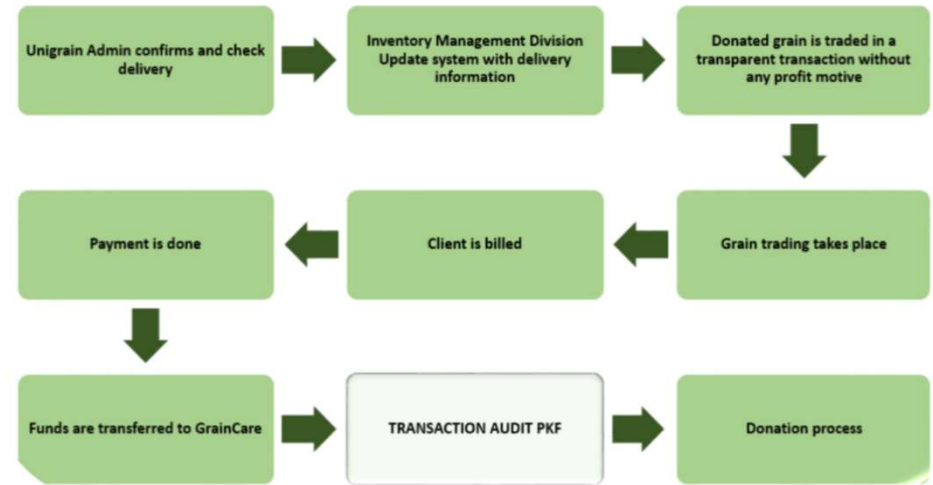

Donating roll players in the food value chain supporting Grain Care’s grain producers initiative are:

- Financial Institutions;
  - Maize millers, oil and other processors;
  - Wholesale and retailers;
  - Agribusinesses and grain storage companies;
  - Commodity traders (local and international);
  - Input providers; and
  - Transport contractors.
- Any grain can be donated for the project – white and yellow maize, sunflower, sorghum, soy, wheat and barley.
