

PULA IMVUILA

Vikela izitshalo zakho zingashiswa umlilo

**UBUSUKU BUYEZA EMVA KWEHLOBO ELIMANZI
ELIFIKE EMVA KWESIKATHI NOKWINDLA OKUMANZI
FUTHI OKUPHUZILE UKUFICA. NGOBA IZULU LINE
KALE NGASO SONKE LESI SIKHATHI, AMADLELO
EZIMFUYO MAHLE KAHLE, KODWA LOKHU NAKHO
KUSHO UKUTHI UKUSA KWENDLE NAMASIMU
KUNGABA INGOZI ENKULU LO NYAKA.**

Umlilo ungadala ingozi enkulu emapulazini. Umenthisi owodwa ungakwazi ukushabalalisa nokubulala amahektheli ayizinkulungwane omhlaba emapulazini. Umlilo emasimini uvama ukuvela ngaphambi noma emva kokuvuna ngoba ngaleso sikhathi umvuno uvuthiwe namasimu omile.

Izindlela zokuvimba umlilo

- Izingane azifanele zidiale ngomenthisi.
- Ungaphonsi umenthisi ovuthayo noma usikilidi etshaneni obomile, noma emakhasini omile noma ezihlahleni ezomile.
- Ungabasi umlilo ongavikekile ngaphandle edlelenwi noma uma kukhona umoya ovunguzayo.
- Qinisa ukuthi yonke imililo ebasiwe icishiwe kahle lapho usuqedile.

Uma ubona umlilo

- Lapho ubona umlilo edleleni noma emasimini,

tshela masinya abakhelwane nomphathi obheka umlilo kuleyo ndawo. Batshele kahle ukuthi ukuphi lowo mlilo.

- Shiya abanye abantu ekhaya abazonikeza iminin-gwane maqondana nomlilo kubanye abantu. Uma unerediyo noma ucingo, ungabokusebenzisi ukuze abanye abantu bazokwazi ukuthintana nawe lapho kuvela izindaba ezinsha maqondana nomlilo.
- Uma ungesiye umnini wepulazi, kufanele wazise umnini masinya ukuthi ukuphi umlilo.
- Susa zonke izimfuyo nemishini uzise endaweni engenangozi.

Amathulusi ongawasebenzisa ukucisha umlilo

- Izinto zokucisha umlilo – ezifafafaza amanzi noma impushana eyomile.
- Yenza izinto zokubhula umlilo usebenzise amabhante erabha amadala noma amasaka amanzi. Lapho ubhula umlilo ngamabhande noma ngamasaka ususa umoya (i-oksijini) odingekayo ukuze umlilo uvuthe. Uma kungekho i-oksijini umlilo uzocimacima kancane uze ufe.
- Sebenzisa amaphampu aboshwa eqolo bese umanzisa utshani emaceleni nangaphambi komlilo. La maphampu angasetshenziswa futhi lapho utsheka ukuthi umlilo ofile zonke izindawo emva

*Incwadi yeGrain SA
yabalimi abasakhulayo*

FUNDA NGAPHAKATHI:

- 3 > Iphrogramu lethu lezikole lihamba phambili
- 7 > Ukumazi...uMonica Mathamba
- 8 > Kuphakanyiswa izinkathazo emhlanganweni (eKhongolosi)

Unkk Jane uthi...

Ngokwamanje imidiya (iTV, irediyo namaphephandaba) ikhulumna kakhulu ngobugebengu nenkohliso. Kwenzekani kubantu bethu, umthetho wokulinganisa impilo yethu nenkambo elungileyo? Mhlawumbe kufanele sixoxe ngenkambo elungileyo.

Enkambeni elungileyo emsebenzini kuhona isimo sakho, indlelo ukuziphatha, ukukhulumisana nokuzwana – indlela sizwana nabanye. Umbuso omkhulu lapho sikhulumisana kuhambelana nalokhu okufaneleyo (okuqondile) nalokhu okubongekayo ubuza ukuthi lokho kumi kanjani nalokho okungalungileyo nalokhu okunamacebo.

Ngeminyaka edlule kwakukhona izinkampani nabantu abangenenkambo elungileyo, babesebenza ebumnyameni futhi kwakungenomthelelo omuhle ebantwini abanye. Labo bantu abazange bayibheke ngokuqonda le nkinga, lapho abanye bebenza izinto ezilungileyo.

Inkambo elungileyo emsebenzini njengobuqotho, ukuseenza kahe, ukubeka inani emsebenzini wakho, ukwazi ukuthi usebenzelani, konke lokhu kubalulekile. Kufanele sifise ukwenza izinto eziqondile. Izinkambo ezelungileyo zivela enhliziyweni, zivela phakathi.

Ekulimeni kuhona amathuba amanangi ukugamba amanga nokwenza izinto eziambi. Cabanga ngabantu ababoleka imali kodwa abayibuseli leyo mali emva kokuvuna; abanye bayatshala, bathengisa umvuno bese bathi abazange bathole umvuno; noma labo ababoleka imali yokutshala inani lamahektheli elithile, bese batshala namanye amahektheli futhi (abasebenzisi leyo yokuqala ukulima maqondana nesivumelwano). Abantu abangakkohki imali maqondana nesivumelwano, abaqamba amanga ngokungasebenzi ngamandla, abantu abathengisa izimpahla ezingasizo ezabo, abantu abathenga izimpahla ezintshontshiwe....njalonjalo.

Uma sifisa ukwakha nokukhulisa isigaba somsebenzi wezokulima ezweni lethu, kufanele sibuyeple phansi, kufanele semukele futhi izimo zomthetho oqondile, izimo zokusebenza ngokukhuthaza nokuhloniphisana. Bonke abantu, nalabo abasebenza eminyangweni kagavumente bafanele benze umsebenzi ofanelekile njalo ngosuku. Lokhu kuyindlela eyodwa ezosiza ukuthi siphumelele phambili. Lapho ufunu ukushintsha indlela izinto zenziwa ngazo – kufanele kushintshe wena kuqala. Hamba phambili wena, thembeka. Masibuyele endaweni lapho sizokwazi ukuthi ngokuqonda: amazwi ami aqondile, ngikhuluma iqiniso.

Vikela izitshalo zakho zingashiswa umlilo

kwesikhathi sokucisha umlilo omkhulu.

- Sebenzisa amathangi amanzi nephampu oku zonikeza amanzi akwanele.
- Amafosholi namahaliki angastshenziswa ukwenza isivimbo etshanini esizovimba ukuthi umlilo usabalale kwenzinye izindawo. Ungokhela futhi omunye umlilo osuka kulesi sivimbo ovutha oya lapho umoya uqhamuka khona. Isimo somlilo siyindawo esicishe sifane nomgwaqo lapho kungekho khona utshani obuzokwazi ukuvutha.
- Sebenzisa amafosholi namahaliki ukucisha umlilo ngesihlabathi nagenhlabathi. Wasebenzise futhi ukususa utshani obomile obuzokusha kalula.
- Sebenzisa izigamula ezibanjwa ngezandla zokusika utshani obungashanga ngaphambili kokufika komlilo.

Ukulwa somlilo

- Sondela kumlilo eceleni noma ngapha nangapha (omabili amaceleni lapho uvutha khona umlilo) ukuze unciphise ingaphambili yomlilo.
- Uma kuhona isivimbo somlilo noma isivimbo semvelo njengomfula, zama ukusa umlilo kuleso sivimbo.
- Beka abantu ezindaweni abazokulwa nokulwa nomlilo lapho umlilo unaqala khona. Umoya uyakwazi ukuvunguza uhambise izinhlamvu zomlilo endaweni elingana nekhilomitha.
- Kubalulekile ukubhula ngendlela ezobuyisela utshani obuvuthayo ngaphakathi emlilweni ukuze izinhlamvu zingaphuphuki zingene ebutshaneni lapho umlilo ungavuthi khona.
- Hlola indlela umoya uvunguzayo ngaso sonke isikhathi – uvelaphi, oqonda kuphi?

Emva kokucisha umlilo

Emva kokucisha umlilo, kufanele wenze okulandeyo:

- Qinisa ukuthi abekho abantu abalimele.
- Hamba kuzo zonke izindawo lapho umlilo ubevutha khona amahora amathathu ukujinisa.

sa ukuthi azikho izindawo lapho umlilo ugale ukuvutha futhi.

- Buyisela yonke imishini ezindaweni zayo.
- Phinda ugcwalise amathangi ngamanzi.
- Lungisa imishini ephukile noma elimele.

Isivimbo somlilo

Bonke abanini bomhlaba noma abanamapulazi lapho kungaqlala khona umlilo ozoshisa lelo pulazi noma ongaya kumanye amapulazi, kufanele bakhe isivimbo somlilo emkhawuleni wepulazi labo namanye amapulazi. Kuyisibopho sakho sokuqinisa ukuthi umlilo unaqali epulazini lakho. Ukwakha izivimbo zomlilo epulazini lakho kungakusiza ekugcineni ngoba kungavikela wena nepulazi lakho (ipulazi, izakhi, izitshalo, izimfuyo) kungavelelw ingozi. Abakhelwane mhlawumbe bangavuma ukwakha nokubheka izivimbo somlilo emkhawuleni yampulazi. Isivimbo somlilo:

- Sifanele sibe banzi sibe bude ngokwanele ukuvimba umlilo ukusuka kwelinje ipulazi uye kumapulazi amanye;
- Asifanele sidale ukuguguleka komhlabathi;
- Asifanele sibe nezinto ezingasheshe sivuthe bese zingahambisa umlilo emadlelweni.

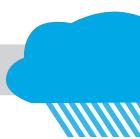

Umgomo wesivimbo somlilo

Umgomo wesivimbo ufanele uhambelane nalokhu okulandelayo:

- Ukuvimba ukusakazeka komlilo ophathwayo (njengokwenza isivimbo somlilo) nomlilo obalekayo ongaphathwayo;
- Ukuthola indawo lapho umlilo ungacishwa khona;
- Ukuthola izindawo lapho kungokhelia umlilo emuva ozosiza ukuvimba umlilo obalekayo;
- Ukuthola indawo lapho kuzoqalwa khona ukulwa (ukucisha) umlilo;
- Ukuthola izindlela zokusondela nokufika kumlilo.

UJANE MCPHERSON, UMPHATHI WEPHROGRAMU LEGRAIN SA LOKUTHUTHUKISA ABALIMI

Iphrogramu lethu lezikole lihamba phambili

NGO-2010, iGRAIN SA LIQALE IPHROMU EZIKOLENI ELISEKELWE iMAIZE TRUST. IPHROGRAMU BELINOPHUMELO OMUHLE. NGESICELO SETHU KU-MAIZE TRUST SOKUTHOLA IMALI NGO-2010/2011 SIPHINDE FUTHI UKU-CELA IMALI SOKUSEKELA IPHROGRAMU LEZIKOLE SUCCESS. iMAIZE TRUST LALINOMUSA LOKUVUMA UKUNIKEZA IMALI YOKUYA EZIKOLENI.

Kubalulekile ukududa izingane ukwazi ukuthi ukulima kunenani (igugu) lapho kukhiqizwa ukudla (kuyindawo lapho kuvela khona ukudla), kuyinto enkuu ezindatsheni zezomnotho, kunikeza ithuba lokuthola imisebenzi futhi kuyindawo lapho ungakhetha ukuyosebenza khona. Uhafu wabantu eAfrika banentanga engaphansi kwa-20. Ngokwamanje izingane zingabathengi zezi mphahla, zingabathengi bakusasa futhi bayizizukulwana ezingabasebenzi zakusasa. Uma sikhazi ukubafundisa manje ukuthi ukulima kubalulekile, kakhlukazi umsebenzi wokukhiqiza ukudla okuzinhlamvu, singazama manje ukubasiza ukuqonda ukuthi konke lokhu kubalulekile.

Lo nyaka umgomo wethu ngale phrojekthi lethu kwakukwenza amaDVD amathathu ahlukene akhombisa isigaba sokwezokulima, umsebenzi wokukhiqiza ummbila nokukhetha ukuyosebenza ekulimeni. Inani lezингane eziya kulezi zifundo likhulu – kuzo zonke izikole besingawkazi ukubona zonke izingane kanyekanye (inani elikhulu alisebenzi kahle ngoba awukwazi ukunaka zonke zidingo zabo), noma ukubona amaqembu lezингane amancane (lokhu kusho ukuthi umfundisi ufanele efundise isifundo sinye kaningi). Siye ukubona iAgriSETA ngo-Oktoba 2010 ukubacela ukusekela le phrogramu. Batho bazonikeza R360 000 ukwenza la maDVD amathathu. Sayemukela isithembiso sabo sasesaqaala ukukhetha abantu abazokwenza lawo maDVD. Ekugcineni sakhetha uMartie Williamse waseNoline Productions ozokwenza iDVD lokuqala noPW van Wyk wa-seAgriTV ozokwenza iDVD lesibili.

Abafundisi bakhethwe ezindaweni eziyishumi, eFreyistata, eNorth West, eNorth West/Gauteng, KwaZulu-Natal, eEastern Cape, eNorthern Cape naseMpumalanga. Ngethemu lokuqala siye kuzikole ezingu-180 sa-khombisa abafundi lawo madVD. IDVD lihlanganiswe ngendlela evumela umfundisi ukumisa iDVD ezindaweni ezintathu ukuze umfundisi uzokwazi ukuxoxa ngalokhu okukhonjisive nabafundi. Emva kokubheka iDVD lokuqala isikole sizothola iphosta elizokhumbuza abafundi ukuthi iDVD be-lifundisani – Ukudla, Umthambo, Impilo.

Sibuze abafundi abathile kulezi zikole lapho siye khona sababuza ukuthi lokhu esizame ukubafundisa kubasizile. Masizwe ukuthi bathini.

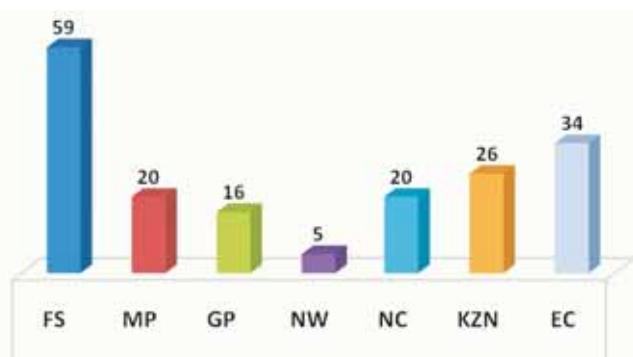

Abafundisi esibabonile ngethemu lokuqala ngo-2011.

Izikole esihambele kuzo ngethemu lokuqala ngo-2010 nango-2011.

Abafundisi abayile kuzifundo ngethemu lokuqala.

Izikole esiyile kuzo kumaphrovinsi athile ngethemu lokuqala ngo-2011.

Iphrogramu lethu lezikole lihamba phambili

UMoliko, uTebello noDoreen abafundi baseQuibing Senior Secondary School

"Angazi ukuqala kuphi kodwa ngiyazi ukuthi ngifunde okuningi futhi ngisafuna ukufunda okunye futhi. Ngikholwa ukuthi kubalulekile ukutshala imithi nokunye ukuze sizokwazi ukuphila kahle njalonjalo. Ngifunde futhi ukuthi ukutshala akusiko umsebenzi wabalimi kuphela, thina esingabantu abasha, siding ukwazi okuningi okuhambelana nomsebenzi wokulima ukuze sizokwazi ukuphizela abanye abantu ukudla. Ngokusuka namuhla ngizoqala ukutshala amaveji ngoba ngifundile nami ngiyawazi ukusiza. Ngithumela iGrain SA isibusiso sami. UNkulunkulu abe nabo ukuze sihlangane futhi."

UBongani noSechaba waseThabo Thokoza Secondary School

"Yebo! Sisqonde kahle isifundo futhi sifunde okuningi maqondana nokulima. Asikwazi ukuphila ngaphandle kokulima. Kukhona ukulinganisa okusondele ngaphakathi kwabali abalimi abakhizqa ukudla ngokufuya izimfuyo nokutshala izitshalo. Sifundile ukuthi lokho esikugqokayo kuvela ekulimeni, sifundile futhi ukuthi ubhekilanga ukhizqa uwoyela futhi ukhotini usebenziswa ukwenza ama 'jeans'. Sifundile futhi ukuthi 'photosynthesis' kwenzeke ezitshalweni eziluhlaza ne 'chlorophyll' kutholakala ezitshalweni eziluhlaza. Siyanibonga Grain SA, bekumnandi ukuhlangana nani."

URamona Steenkamp wasePionier Hoërskool

"Yebo, kwakulusizo olukhulu. Mina sengihlonipha ngibonga lokho engikudlayo futhi indawo lapho kuvela kukhona. Siyabonga ukusherisha ulwazi lenu nathi. Sicela ukuthi niqhubeke ngalo msebenzi wenu, bekuyisimangaliso."

Mosamo, Mokhele P, Diphapang, Radimo and Mokhetni M from Le Reng Secondary School

"Sifunde izinto eziningi esingazazi, njengalokhu: 90% wokudla womhlaba jikelele ukhizqiza ngabalimi. Sidinga abalimi abahlau ukwenza 'burger' elodwa. Abanye lapha esikoleni sethu bebengazi ukuthi izinto zokwembatha zenziwa ngezikhumba nomu uboya bezimfuyo, abazi ukuthiukufuya izilwane (izimfuyo) nakho kuyindlela yokufunda. Besicabanga ukuthi umsebenzi wezokulima ngukulima nje (ukutshala), kodwa namuhla sibonile ukuthi asazi lutho. Umsebenzi wezokulima kuhambelana nempilo yabali ngoba ngaphandle kwabali akungeke kubekhona ukudla."

UMonique Pretorius waseWinburg High School

"Yebo, ngifundile ukuthi singenza umehluko uma siyosenza emapulazini emva kokugeda ngesikole ukuze sonke sisizane sibe nokudla. Ngibonile futhi namuhla ukuthi kubuyaphi konke ukudla nezinye izinto esikudlayo, akulula ukwenza zonke lezo zinto, besingacabangi ngalokho. Angizange ngicabange ukugonda ukuthi zenziwa kanjani lezo zinto, kungimangalisile. Ngibonga kakhulu!"

UThabiso Msomi waseLinpark High School

"Yebo, kusikhombisile ukuthi ukudla esikudlayo kufika kithi futhi kwenziwa kanjani. Kusikhombise futhi ukuthi kukhona izinto emsebenzini wezokulima esingakwazi. Kusikhombise ukuthi izingubo esizembathayo zenziwa kanjani futhi zifika kanjani kithi."

UMalefane Retshedisitswe wase-Boitumelo Secondary School

"Ngibonile ukuthi ngaphandle komsebenzi wezokulima sizolamba futhi asingeke sibe nezinto zokwembatha. Ngokwami ukulima kuyinto enhle, kusiza abantu, izilwane nokunye. Ngifuna ukucela abantu ababulala izilwane nemithi ukuthi bakhawule, ngoba lapho baqubeka ukubulala imithi sizohlupheka ngoba asingeke sibe nokudla, amapulangwe ukwakha izindlu, ifenisha nezinto zokubhala, futhi uma sibulala izilwane sizohlupheka ngobe asingeke sibe nezinto zokwembatha nokudla - ngiyakuthanda lokho..."

ULetshabo Ipeleng waseSenzile Combined School

"Ngifunde ukuthi izinto esizisebenzisayo njalo zibuya kuphi futhi ziye kuphi ngaphambi kokuba ukudla okudliwayo. Sifunde ukuthi kungani izitshalo nezimfuyo zibalulekile kithi futhi zisinikezani. Sifunde futhi ukuthi ukudla kuvela kuphi ekuqaleni (primary) bese kuya esigabeni sesithathu (tertiary) bese kuya kube nefayiba."

UMetyat Nontetho from Senzile Combined School

"Ukuvakashelwa iThe Grain SA kusilethele ulwazi oluhle - kusinikeze izibonelo ezikhombisa ukuthi izinto zenziwa kanjani: ekuqaleni ('primary'), okwesibili ('secondary'), okwesithathu ('tertiary'). Kwakuyinto eyisimangaliso kimi. Ngimangale ukubona izinto ezisetshenziswayo sivelaphi. Kwenze ukuthi ngicabange ngemisebenzi ekhona ezokulimeni. Ngifunde futhi ukudbona ukuthi izingubo engizembatha njalo ngosuku zenziwa kanjani. Manje sengiyohlola ukuthi kukhona imisebenzi enjani ekulimeni ngoba ngibonile ukuthi nabantu abangafunda nabo baykwazi ukusiza - lokhu kusho ukuthi kuzoba khona eminingi imisebenzi futhi kuzoshintshakala impilo yabantu abanangi. Ngiyaphinda futhi: kwakuyisimangaliso ukubona lokhu."

UPono Shembe waseZakhe Agricultural College

"Bekunosizo olukhulu, ngiyaqinisa ukuthi zonke izikole nazo zizovuma. Nami ngifunde izinto eziningi, kakhulukazi ukuthi izidingo ziningi zabantu zivelu emsebenzini wezokulima. Lapho abantu basuka emapulazini baye emadolobheni nokwanda kabantu, ukulima kulinganisa amapulazi namdolobha amakhulu. Ukulima kuvala isikhala sokukhiqiza ukudla emhlabeni jikelele. Izingubo esizigqokayo zihambelana nokukhiqiza ekulimeni. Silinda ukuthi bafike futhi!"

UREbecca Ntsapi waeBoitumelo Secondary School

"Ngibonile ukuthi ngaphandle komsebenzi wezokulima sizohlupheka, akungeke kubekhona abantu emhlabeni, abantu bazokufa. Ngaphandle kokulima akungeke kubekhona Izingubo zokwembatha, ukudla nezindlu. Ukulima kabalulekile empilweni yethu, ngaphandle kokulima akungeke kubekhona izinto eziningi emhlabeni. Ngiyabonga!"

UMoshane Paballo Vinoliah waseRainbow High School

"Yebo, kwakumandi kakhulu ngoba ngifunde okuningi okuhambelana nomsebenzi wezokulima. Ngingumuntu ozwayo ngakho-ke sengiyaqonda okuningi okuhambelana nokulima futhi ngifuna ukufunda okunye futhi. Lokuhbekuhle kakhulu. Ngifisa ukufunda umsebenzi wezokulima futhi ngikholwa ukuthi kukhona amathuba amanagi ukuthola umsebenzi. Bengizojabula kakhulu uma umfundisi wethu weGSA unkosikazi A Thoma athintane nami. Angathintani nesikole sethu kuphela, kufanele baye ezikoleni ezinye futhi banikeze ulwazi nalapho."

UCallum Estchmaier waeWeston Agricultural College

"Yebo, kusise kakhulu ngoba kusilungisele ukungena emsebenzini wezokulima. Lesi sifundo sabo sisize futhi sibone ukuthi ukulima kabalulekile ukuthola ukudla, Izingubo, icizathulo ne-eneji. Bazama futhi ukusisondelisa ekulimeni sonke isikhathi."

UMtabane Egnar waseLere-La-Thuto School

"Bekuyismangaliso kimi ngoba okungi bengingakwazi. Ngithemba ukuthi iGrainSA kizophinda libuye futhi. Kungisize kakhulu. Bengingazi ukuthi irayisi livela emhlabathini ngaphansi kwamanzi. Okunye engikufundile yilokhu: obabamkhulu bethu lapho befuna izingubo zokwembatha kwakufanele baphume bayozingela ukuthola Izingubo, kodwa thina sithenga emashopo. Angizange ngicabange ukuthi ngizofunda okuningi kangaka. Ngiyanicela, phindani nifike nikombise abanye abazange babone lesi sifundo senu. Bazoman-gala nabo lapho bebona lokhu engikubonile namuhla. Kwakuyismangaliso!"

Usandile Mohunu waseSarel Cilliers High School

"Yebo, ngikholwa ukuthi thina esingabantu sivama ukuthatha izinto ezivela ekulimeni ngathi kuyinto ejwayele-kile nje. Angizange ngicabange ngazo zonke izinto engizwe namuhla. Manje sengiyazi ukuthi ama 'cornflake' awafiki nje etafuleni ngaphandle komsebenzi omningi owenzekayo ngaphambilij. Sekuyisikhathi sibheke izinto zemvelo ngendlela ehlukene, ngendlela evumayo. Ohubekani ngomsebenzi wenu. Ningalahlekela umdalandla wenu..."

ULondeka Mkhize waseEstcourt High School

"Yebo, ngoba ngifundile ukuthi kukhona izigaba eziningi ekulimeni. IDVD mhlawumbe lingakuchaza okunye ngendlela ekhanyayo. Kungifundise ukuthi kukhona izingcebo eziningi emhlabeni, thina esingabantu sifanele sicabange ngakho. Siyabonga ngoba kukhona abantu abathatha isikhathi sabo, ukwazisa thina ngalezo zinto, silinda ukuthi baphinde bafike futhi."

Waco Hulme wase Linpark High School

"Lokhu kwenze ukuthi ngibone ukuthi konke esikud-layo nalokho esikumbathayokutholakala emvelweni. Ngifunde ukuthi abalimi benza umsebenzi omkhulu empilweni wethu ngoba bona batshala izinto esikud-layo futhi amveji amanangi aphuma emhlabathini. Abalimi bayaqinisa ukuthi izimfuyo ezidliwayo ziphila kahle futhi bayaskhombisa ukuthi umhlabathi ubalulekile empilweni yethu. Abantu bafanele ukuthi ukudla kuphele – sisebenzisa imiliyon iellodwa lamathani lommbila ngonyaka. Uma siqhubeke kanje sizoba enkingeni, kwenze ukuthi ngicabange ngazo lezi zinto futhi ukubonga ngoba sisena zo!"

UMakotsoang Sello waseLouw Wepener Combined School

"Yebo, ngoba kumnandi ukuthola ulwazi okuhambelana nokwezokulima, ngufundile futhi ukuthi umhlabathi uyinto yemvelo ephilisa umhlabi. Konke esikutholakho namuhla kuvela kuzimfuyo nasemhlabathini. Ubabamkhulu wami wayelima naye kodwa wayengenol-wazi njengobaba. Ubaba unolwazi nekhono, utshala izinto eziyinhlobonhlobo njengeklabishi namazambane. Ngifisa ukuthatha ifa labazali bam'i ngiye phambilij. Nobaba uzozigqaja. Lokhu engikubonile bekuyinto engeke ngiyik-hohlwe. Ngibonga kakhulu."

Sibheka Amaqembu Okufunda aseEastern Cape

KULE NDAWO KUKHONA AMAHEKTHELI ANGU-2152 AKWAZI UKULINYWA NGAMALUNGA AMAQEMBU OKUFUNDA. LEZI ZINDAWO NGUMHLABA OSETSH-ENZISWA NGUMUZI WONKE KODWA UGAVUMENTE UNGUMNINI, UPTHATHWA NJE UMKHANDLU WESIGODI. UMLIMI NGAMUNYE UNESIVUMELANO SOKUHLALA KULEYO NDAWO (*PERMISSION TO OCCUPY – PTO*) OKUCISHE KUFANE NESI-VUMELWANO SOKUQASHA. UMLIMI ANGEKE AKWAZI UKUBA UMNINI WALOWO MHLABA, KODWA NAYE ANGEKE EKWAZI UKUQOSHWA KULEYO NDWAWO.

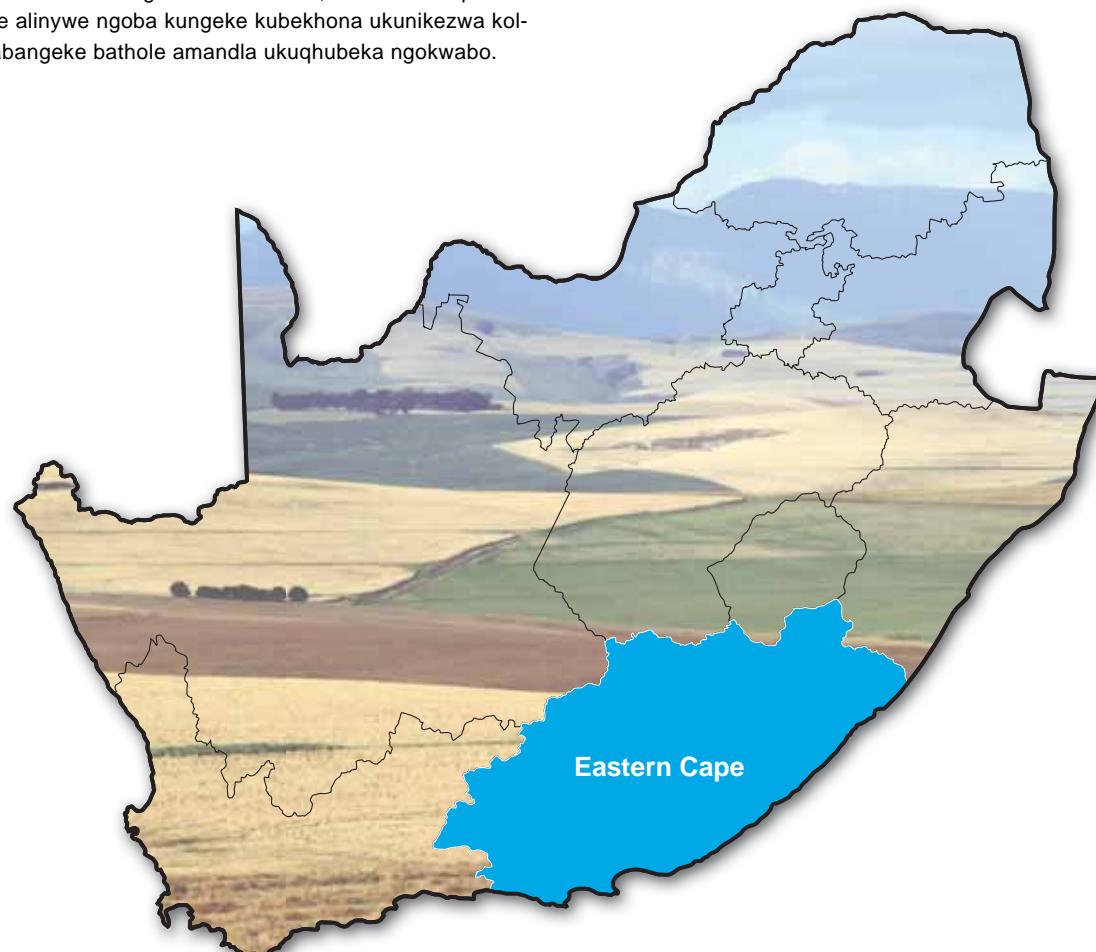

Ngalo nyaka abalimi bahlulekile ukulima amahektheli angu-857. Kunkhona izizathu eziningi zalokhu, kakhulukazi izindleko eziphakeme zokuqala ukulima nezindleko eziphakeme zokuqasha abankontilaki. Abalimi bayahuleka ukuthenga imishini yabo ngoba intengiso yokudla okuzinhlamvu iphansi futhi inzuso incane. Abanangi abalimi abasasebenzisa lo mhlaba sebakhulile baphila kakhulu ngempempensheni kuphela. Futhi laba balimi abagugile bangeke basekelwe amabhangane ngokuboleka imali, abakwazi futhi ukwandisa amasimu abawahlanyelayo ngemali abanayo.

Amaningi amasimu akwazi ukutshalwa awakabiwelwa ngothango, manje abalimi babhekene nengozi ngoba izimfuyo zidlakhona. Iphrogramu leCASP IoMnyango Wezokulima iqhubeka kancane kakhulukazi ngokubiyele amasimu ngothango. Iphrogramu elikhulu lokukhiqiza ukudla liyanciphiseka ngoba abanangi abalimi abasatholi ukusekelwa kuleli phrogramu ukuze batshale ukudla. Abalimi basemaphandleni bacela ukusizwa iphrogramu leASGISA bese balima amasimu womuzi wonke kodwa lokhu akusizi abanini balowo mhlaba. Lokhu akusiyi incasiso eqinile ngoba siyazi ukuthi lapho iASGISA lingasalimi amasimu, amasimu azophinda ashiywe nje angeke alinywe ngoba kungeke kubekhona ukunikezwa kolwazi futhi abalimi abangeke bathole amandla ukuqhube ka ngokwabo.

Amalunga esiqumbi sokufunda ahlangana njalo ngenyanga. Kunosizo olukhulu ukuba ilunga lequmbi lokufunda ngoba abalimi bayakwazi ukwabelana izibono zabo, ukukhomba izidingo zabo mayelana nokuthola ulwazi futhi ukusekelana. Abalimi abasemaphandleni basekudenibala nabalimi bezomnotho ngakho-ke abekho abalimi abanangi abalima ngendlela yezomnotho. Uku-thuthuka kulezi zindawo kuqhube ka kancane, kodwa niyajabula ukuthi ukuthuthuka kuyabonakala. Abalimi basebenzisa izimbewu ezingama-'hayibridi' (izimbewu ezimbili ezingafani ngohlobo), umanyolo ofanelekile futhi bazama ukubulala ukhula emasimini lapho kutshalwe khona ummbila.

ULAWRENCE LUTHANGO, UMHLANGANISI WEPHROVINSI WEPHROGRAMU LABALIMI BASESA ABASATHUTHUKAYO

Ukumazi... uMonica Mathamba

UMONICA MATHAMBA UHLALA EMBUSWENI WASEMTHATHA MBOZISA LAPHO EYLUNGA LENHLANGANO LABALIMI BASEMBOZISA. UMONICA ULIMA AMASIMU OMHLABA WONKE ANGAMAHEKTHELI ANGU-6 FUTHI UPHUMELELE UKUBIYELA AMASIMU LAPHO ETSHALA KHONA NGOTHANGO.

UMonica uye kuzifundo zeGrain SA eziqequesha abalimi ezilandelayo: Isingeniso sokukhiqiza ummbila nesifundo esiphakeme sokukhiqiza ummbila. UMonica wandise umkhiqizo wakhe ngokusebenzisa ulwazi aluthole kuGrain SA. Uvame ukukhiqiza amathani angu-3,5 ehektheleni kodwa manje ukhiqiza amathani angu-4,5 ehektheleni.

Uyithola kanjani imali yokutshala?

Imali yokuqala ukutshala uMonica usebenzisa imali ephuma ekhukhwini lakhe ngoba umphathi wezimali uvama ukuthola imali ayibolekayo emva kwesikhathi lapho sekuvuniwe.

Uzithola kuphi izinto zokutshala?

UMonica uthi uthenga izinto zakhe zokuqala ukutshala kuMthiza Farmers Co-op naseEast Cape Co-op. Inani lentengo livama ukuba phezulu (ziyadula) futhi abalimi abanikezwa iseluleko maqondana netheknoloji zalezo zinto.

Uyinini umsebenzi ugavumente ubhekene nawo ekulimeni futhi uphumelela kanjani ukwenza lowo msebenzi?

Ugavumente ufanele enikeze abakhiqizi imibiko (iseluleko) namakhono ahambelana neknoloji futhi bafanele banikeze izindlela namathuba ukuqhubeuka ngomsebenzi wabo (*infrastructure*). UMonica uthi ugavumente akawenzi lowo msebenzi ngoba abasebezisi amapholisi abo lapho kudingeka khona.

Uthhini ngokuqhubeuka kwakhe ngendlela enhle kangaka ekulimeni?

UMonica uthi ukuphumelela kwakhe phambili kwenzeka ngoba uthanda kakhulu umsebenzi wokulima futhi usebenza kakhulu njalo, ukhuthele. Ukholwa ukuthi ukusebenzisa izimbewu ezingama-'hayibridi' (izimbewu ezimbili ezingafani ngohlolo), umanyolo ofanelekile futhi uzama ukubulala ukhula emasimini ngamakhemikheli kumsizile ukwandisa umvuno wakhe. Ngalo nyaka, uMonica ufuna ukuthenga eminye imishini, kakhu-lukazi umshini ofafazayo.

IPULA IMVULA ITHOLAKALA NGALEZI ZILIMI EZILANDELAYO:

IsiZulu,

IsiNgisi, IsiBhunu, IsiTswana, IsiSuthu,
IsiSuthu saseNyakatho, IsiXhosa.

Sizimisele ukukhipa incwadi enhe kakhulu. Uma ufisa ukuxoxa ngokuphakathi noma ngendlela kubhaliwe ungathintana noJane McPherson.

Kuphakanyiswa izinkathazo emhlanganweni (eKhongolosi)

UMNZ JAN BOTHA WASETHABA'PATCHOA UP-HAKAMISE IZINKATHAZO EZININGANA EZIPHATHE-LANE NABALIMI ABASAKHULAYO KULO MHLANGANO WOMNYAKA WEGRAIN SA NGO-9 MASHI 2011. UKHULUME KAKHULU NGEZINKINGA ABAKHIQIZI ABASAKHULAYO BABHEKENE NAZO NOKWEHLULE-KA KUKAGAVUMENTE UKUBASIZA NGAZO.

Ngaphambi kokunikeza izibonele zezinkinga abalimi babhekene nazo nokwehluleka kukagavumente ukubasiza uJan wathi, "Thina esingabakhiqizi abazakhulayo abamnyama sibhekene nezinkinga ezifana nalezo abalimi bezomnotho babhekene nazo, kodwa kaningi izinkinga zethu zinkulu ngoba asinayo imali ebekiweyo".

Waqaala ngokhuluma ngenani lepH elisemhabathini elingaphansi. Wakhombisa ukuthi ngo nyaka obdlule iDAFF lithembise abakhiqizi ukuthi lizobanikeza umcako. Ngonyaka odlule kwakhiwa amamephu ngeGPS, kwathathwa amasampula omhlabathi, kwakhishwa umlayezo, kwaqondiswa ukuthi kudingeka inani lomcako elingakanani futhi imali beyikhona ebhajethini. Konke lokhu kwenzeke ngoMeyi 2010, kodwa ngokwamanje umcako usengakathelwa emasimini. UJan wathi, "Lokhu kwenze ukuthi umvuno wasehlobo ngonyaka odlule waba phansi futhi kuzokwenza ukuthi akungeke kuvunwe ukolo omningi lo nyaka."

Isimo esibi semishini nesawogandaganda kuyinto yesibili eyimhluphayo uJan. Wathi iGrain SA ihlole kahle ukuthi isimo semishini sabakhiqizi abangu-42 eFreyistata sinjani. iGrain SA laselacela iDAFF ukusiza labo balimi ngeR2,5 miliyoni ukulungisa leyo mishini. Wonke lo msebenzi we-Grain SA wawulungisiwe ngo-12 Mashi 2010, kodwa ngokwamanje iDAFF alikenzanga lutho.

Okunye okumhluphayo ngukuyinhlawulo yamankontula emasimini nezindawo lapho kuhamba khona amanzi. Uthi, "IDAFF linephrogramu elihle lokuphepha umhlaba (Land Care) elenza umsebenzi omuhle, kodwa ibhajethi labo lin-cane kakhulu, umhlabathi uyagezekwa ngaphambi bi bakwazi ukukuvimba lokhu."

Ujan uthintane futhi nesimo semigwaqo lapho emzini wethu esenza ukuthi abakhiqizi bangakwazi ukuthutha umvuno wabo ngendlela efanelekile – imigwaqo idala ingozi ngoba ilimaza amaloli. Wase waqhubeqa waya kwenye inkinga, inkinga yokudlisa amadlelo kakhulu. UJan wathi, "Ukulisa amadlelo kakhulu kufanele kuphathwe iDAFF ngephrogramu elalibizwa ngokuthi *bodem beskerming*."

Kukhona ezinto ezinye ezimbili ezimkhatzayo uJan. Ngokokuqala uthi omasipala bayahluleka ukuphatha umhlaba womuzi wonke ngendlela efanelekile. Ngokwesibili ukhulume ngezinkinga zabalimi zokutsheleka imali yokukqala ukukhiquiza. UJan uchaze wathi ngonyaka odlule abakhiqizi abamnyama batshale amasimu angu-25% kuhela ngoba bahlulekile ukuthola isikwenetu sokuqala ukukhiquiza. Inzuso incane kakhulu ukuthola isikwenetu. iGrain SA lenzele abalimi abangu-152 amasu ebhizinisi (*business plans*) kule phrogramu elizosiza abalimi abafuna ukutshala izitshalo zasehlobo. Abakhiqizi badinge amagranti esikhashane kodwa ugavumente aka-ze wathatha izinyathelo ngale ndaba. "Amaektheli angu-27 000 awazange watshalwa lo nyaka ngabakhiqizi abamnyama – amasimu amahle. Ogavumente abazange benze lutho ukusiza labo balimi, kodwa bathi njalo ukuthi bakhathazekile ngenkinga yokudla okuzobakhona nakusasa."

UJan waphinda wathi ukuthi unenkinga ngeziphatimandla eziqbobeleana nolwazi ngoba bayahluleka ukusiza abakhizi. "Azinolwazi namakhono ngoba azizange zilime ngokwabo, eziningi azifiki nokufika emapulazini."

Isibonelo sokugcina sokwehluleka kukagavumente ukusekela abalimi abasakhulayo yilesi: UMnyango Wezomhlaba unekeza abantu abangasibo abalimi umhlaba. "Abalimi abanekhono lokulima bayaqhubeqa ukuhlupheka ngoba abanayo indawo yabo yokulima kodwa abantu abangakwazi ukulima banikezwa umhlaba manje lowo mhlaba awusetshenziswi."

UMz Jan Botha wagcina wacela uSihlalo weKhongolosi ukuhambisa lo mbiko kugavumente. "Bayahluleka ukusekela abalimi abamnyama futhi abangeke bakwazi ukushintsha lesi sigaba sempilo lapho banganikezi abantu lokho okudingekayo."

**UILANA KOEGELENBERG, OBHALELA
IGRAIN SA**
